 JOHNSTON and VOGELGESANG make our nest three  
 With fires in 2A there's plenty of steam  
 For 3 and 4 generators and auxiliary machine

 Embarked on (MUX" is CDS 32  
 Captain R. B. KELLEY and his crew

Since last New Years Eve, which found us in BOSTON  
 Much ocean we've covered, we've been on the run  
 In these following verses lets look once again  
 To see what we've done and where we've been

We left dear old Boston on January the fourth  
 And sailed for Norfolk, our new home port  
 But for only a month did we stay there  
 Then off to the South for a cruise so rare

Port-of-Spain, Trinidad was our first stop  
 Where COMSOLANT set up his shop  
 Four new DE's joined us then  
 Also a sub, and ashore PatRon 10

Again we turned South, onward to Rio  
 While enroute 90 pollywogs met their old foe  
 From Rio on Southward to Montevideo  
 Mardel Plata was next, then northward we go

At Recife we stopped for only a day  
 Then again Port-of-Spain; here ship's parties were gay  
 LaGuaria was next, here we changed XO's  
 Port-of-Spain once more for a little more limbo.

Here Admiral STEPHAN then hauled down his flag  
 of he and his staff our crew still does brag.  
 We left for the states after four months away  
 And this time it wouldn't be such a short stay.

We arrived in Norfolk on the sixth of May  
 And CDS 32 came aboard to stay  
 Alongside the TIDEWATER we spent some time
